UPDATED NOVEMBER 2014

Greenfield Park

Consisting of mesic hardwood forests dominated by red and white oaks, sugar maple, and basswood, this property contains numerous ephemeral ponds teeming with life. Hiking trails navigate the large woodland, and paved trails circle the lagoon, providing excellent birding opportunities. This park is an eBird hotspot. See what has been observed here at eBird.org/ebird/wi/hotspots and submit your observations at eBird.org.
